

Multipurpose cleaning machine

Bubbling cleaning system

SC-BP3

3 Advantages

Only need to rotate the air valve

When you want to clean it, you can start the cleaning as long as you open the air valve switch, and there will be no wrong operation.

It will be cleaned with bubbling force.

The cleaning fluid specially developed for cleaning has high cleaning power and bubbling force acting on the components together, so that the components to be cleaned can be cleaned without unevenness and can be cleaned in all directions.

Free cleaning prototypes are available, and cleaning fluids are also available at a discount.

For customers who want to purchase special cleaning fluids on a regular basis, the cleaning machine can be loaned for free, and the cleaning fluid can also be purchased at a 15% discount.
